Summary

Atualmente, ele atua como Developer na Tutoria Developer em projetos de web scraping com Python.
Com mais de duas décadas de experiência como Analista de Sistemas, possuo um histórico sólido em atuações no setor empresarial e financeiro de grande porte, incluindo colaborações com renomadas instituições como HSBC Bank, Itaú-Unibanco e Santander.
Desde 2022, concentrei meus esforços na AWS (Amazon Web Services), com proficiência em serviços como RDS, ECR e ECS, e estou sempre atualizado com as últimas tendências em nuvem e DevOps.

• Minhas habilidades avançadas em programação, com domínio de Python, Shell e Bash Script, aliadas à experiência em desenvolvimento de APIs Restful e frameworks como Flask e Django, me permitem oferecer soluções técnicas de alto nível.
• Além disso, mantenho meu foco na aplicação de metodologias ágeis, como o SCRUM, e na administração de sistemas operacionais Linux, o que contribui para entregas eficazes e eficientes.
• Tenho experiência em configuração e gerenciamento de servidores Apache, MySQL e Postgres, bem como na implementação de práticas de integração e entrega contínua (CI/CD) com ferramentas como Jenkins.

Experience

Consultor de TI

Tutoria Developer

Feb 2023 - Present (9 months)

Realizei a extração de lista de anúncios de empregos de motoristas de caminhão nos seguintes sites: CDLLIFE, TRANSFORCE, PRODRIVERS e FSTAFF. Utilizei as ferramentas Scrapy e BeautifulSoup em conjunto com a linguagem de programação Python para realizar essas extrações. Como resultado, gerei arquivos CSV contendo os dados extraídos, os quais podem ser processados posteriormente pelo cliente.

Devops

FIT - Instituto de Tecnologia

Aug 2021 - Apr 2022 (9 months)

Implement devops practices to solve issues regarding source code and create a branching strategies (Gitflow)
Help teams delivery and integrate code more faster in production CD/CI, to increase speed of innovation

Desenvolvedor Python

Spassu

Jun 2021 - Aug 2021 (3 months)

Working as a Python Developer (Remote Job) working with an agile team.
Weekly deliveries based on Jira's cards.

Main stack Technology: Python, Django, Containers (Docker)

Desenvolvedor Python
Monte Bravo
Feb 2020 - Apr 2021 (1 year 3 months)
Python Technician Consultant and Developer - Solving performance issues of legacy scripts, making extraction processes more faster than old one using Thread with Python.
Main Stack Tech: Python, Prefect, Pandas, Selenium, BS4, Requests, Javascript.

Developer
SciCrop®
Nov 2019 - Dec 2019 (2 months)
Working as Python Developer using Django in backend, frontend with Javascript using libraries like
C3.js e D3.js
- QGIS
- Postgres Dabase
- GeoDjango
- Maps visualization using Leaflet(Javascript).

DevOps Consultant
ClearSale
Apr 2019 - Jun 2019 (3 months)
Working as devops in ecommerce Project's on Clear Sale
Main activities:
CI/CD pipelines
Code compilation and packaging;
Generation of builds from source code submissions;

Software Developer
BRQ Digital Solutions
Jan 2019 - Apr 2019 (4 months)
Working as a Python developer in B2B Project's on Renault
Maintenance and suppor HYBRIS - SAP, Angular HTML and CSS and Java Spring on backend.

Python Developer
Stefanini Brasil
